Ohio State Lima admits 16 University Scholars for Fall 1995

The Ohio State University at Lima has admitted 16 University Scholars for the Fall of 1995. This is the largest number ever admitted on a regional campus, outside of Columbus.

Four of the sixteen are from Ottawa Glandorf High School, making this the largest number of scholars admitted to a regional campus from the same high school.

A University Scholar is designated by The Ohio State University as an outstanding student based on his or her high school accomplishments. All 16 recipients this year have achieved high SAT or ACT scores and rank at the top of their class. They include:

Carrie Bingman	Ada HS	Mathew Niese	Ottawa Glandorf HS
Michael Clark	Allen East HS	Cheryl Ricker	Ottawa Glandorf HS
Kristen Sims	Bellefontaine HS	Brent Schroeder	Ottawa Glandorf HS
Nick Stechschulte	Columbus Grove HS	Kimberly Verhoff	Ottawa Glandorf HS
Benjamin Rahrig	Delphos Jefferson HS	Melissa Staples	Spencerville HS
Helena Morris	Kalida HS	Laura Grieshop	St. Marys HS
Barbara Siefker	Kalida HS	Christi Hirschfeld	St. Marys HS
Scott Pollock	Lincolnview HS	Shannon Rampe	Wapakoneta HS

Ohio State University Scholars each receive a \$1000 scholarship, renewable annually.

"The calibre of students applying to Ohio State Lima is remarkable," said Dr. Violet I. Meek, dean and director of The Ohio State University at Lima. "With our growing range of program offerings and our excellent Honors Program, we are attracting outstanding students from throughout West Central Ohio."

Ohio State will offer six special honors courses next year including English, Psychology, Geography, Geological Science and a two-quarter sequence in Biology with a spring break trip to the Everglades in Florida. By taking honors courses at OSU-Lima, honors students are eligible to compete for Honors Book Awards (\$100, up to 18 each year) and Honors Tuition Scholarships (\$1000, up to three given each year). These awards and scholarships are based solely on merit.

"We are looking forward to an outstanding group of incoming freshman that will add new vitality to a quality program," said Dr. Michael Cunningham, associate professor of zoology and director of the Honors Program at The Ohio State University at Lima.

Support for the Honors Program at Ohio State Lima comes from several individual and corporate sponsors in the community including a \$2000 donation by the Ford Motor Company, Lima Engine Plant and an Honors Bus supplied courtesy of Mid Bus Inc. of Bluffton. Scholarships are also funded through the Ohio State Lima Faculty/Staff Scholarship Fund.

1995 Graduates and Honors Students Recognized June 4

Ohio State Lima's Graduation and Honors Celebration was held on Sunday, June 4th, from 1:30 to 4 p.m. in Reed Hall on the Lima campus. The proceedings began with a formal faculty and staff processional in full academic robes. The program also featured the Lima Campus Chorus under the direction of Dr. Richard Mallonee.

During the second annual convocation, several hundred OSU Lima students were recognized for graduating in the following programs: Associate of Arts, Bachelor of Arts, Bachelor of Science, Master of Education, Master of Arts, and Master of Social Work. Members of the PSI CHI National Honor Society in Psychology and the PHI KAPPA PHI 1995 inductees were also recognized. Academic Awards were given to outstanding students in the Arts, Humanities, Natural Sciences, and Social Sciences. Division awards and Spring Quarter Honors Awards were also presented.

One of the high points of the event was the presentation of Ohio State Lima's Outstanding Alumna Award. This year it went to Dr. Margaretha S. Lucas, Staff Psychologist for the Counseling Center and Assistant Professor in Counseling and Personnel Service at the College of Education, University of Maryland. Our Graduation Celebration Speaker was Dr. David Hothersall, Professor of Psychology, The Ohio State University.

Keynote speaker: David Hothersall

David Hothersall was born and received his early education in England. In 1957 he emigrated with his family to South Africa and there received a Bachelor of Arts Degree with Honors and, in 1964, a Master of Arts with Distinction in Psychology. He completed his graduate studies at Tennessee and was awarded his PhD degree in Psychology in 1968.

He joined the faculty of the Department of Psychology at Ohio State in 1968 and is now a Professor of Psychology. In 1990 Hothersall was appointed Ohio State's University Honors Director.

Support Services Award
Faculty/Staff Honored
3. **Summer Courses**
Faculty Assembly

Welcome Claudia Crowell

Claudia joins us as Director of Development & Alumni Affairs taking over from Carla Chuchill who retired in December.

Most recently Claudia was Development Officer at The University of Toledo College of Arts and Sciences. Before that she was Development Director at Bowling Green State University College of Arts and Sciences, where she also held the position of Assistant to the Director of Development.

She has a Master's in Public Administration from Bowling Green State University and a Bachelor's in Psychology from Seton Hill College, Pennsylvania.

Currently Claudia lives in Bowling Green with her husband Dr. William E. Grant, Director of the American Culture Studies Program at Bowling Green State University and their son, Austin. She enjoys backpacking and hiking.

Claudia is located in Galvin Hall, Room 107. Stop by and say hello!

Math & Physics Summer Institutes

OSU Lima will offer two six week institutes this summer as part of Ohio's Systemic Reform Initiative in Science and Mathematics (Project Discovery). These Institutes are in cooperation with Project Discovery of Northwest Ohio and will be primarily for teachers of middle grade students.

The Mathematics institute will be on the OSU Lima campus and will be directed by Dr. Ruben Sweiger and has been funded by an \$80,000 Eisenhower grant. Approximately 20 teachers from Allen and surrounding counties will attend this institute. An instructional team consisting of public school teachers and university professors will comprise the instructional team.

A Physics Institute will also be offered by OSU Lima but will be offered on the campus of the University of Findlay. Area teachers, college and university professors, and teaching assistants from the Department of Physics will serve on the instructional team. Approximately 25 teachers of middle grade students across Northwest Ohio will attend this institute.

(continued from page 1)

Outstanding Alumna: Margaretha S. Lucas

Dr. Lucas is a Staff Psychologist for the Counseling Center and Assistant Professor in Counseling and Personnel Service at the College of Education, University of Maryland.

She graduated, summa cum laude, with a B.S. in Elementary Education from The Ohio State University, Lima, Ohio in 1979. She went on to receive an M.S. and a Ph.D. in Counseling Psychology from Iowa State University in 1983 and 1985 respectively.

During her time as a student on the Lima campus, Dr. Lucas was Student of the Year in Geography, Student of the Year in Psychology and had the honor of presenting a paper on Lithium at an undergraduate convention at Bowling Green State University.

A special tribute was paid to Maryclaire Stone of Sidney, Ohio, an OSU-Lima student, wife, and mother who had just completed the course work toward a bachelor's degree in elementary education before her untimely death in a car crash, November 14th, 1994.

Congratulations Cathy Eley

The 1995 Excellence in Support Services Award was presented to Cathy Eley, administrative secretary to the associate dean, at the annual Faculty/Staff Awards Celebration, May 19. She received a plaque and a check for \$250.

Cathy joined Ohio State Lima as a Stenographer II in 1976. In 1983 she was promoted to Secretary I and in 1989 she took over her current position reporting to Dr. Phil Heath, associate dean. She has dedicated nearly twenty years of outstanding service to Ohio State Lima.

Here are some of the remarks from her nomination papers....

"She exemplifies The Ohio State University — the best in excellence."

"She is one of the first people we call when other avenues fail..."

"She does her job, and then some..."

Other Honorees

Other members of Ohio State Lima faculty and staff honored May 19 included:

25 Years

Betty Milum, Assistant Professor/Reference Librarian
Gary Weaver, Director of Financial Aid

15 Years

Timothy Hahn, Auto Mechanic I
Dennis Krouskop, Groundskeeper I

10 Years

Nan Arbuckle, Assistant Professor, English
Michael Cunningham, Associate Professor, Zoology
Donna Lamb, Academic Advisor/Staff Assistant
Liliane Wiswell, Lecturer, French

5 Years

Kay McAlpine, Lecturer, Music
Glair Roach, Custodial Worker
Richard Ciganko, Assistant Professor, Art Education
Patricia Scharer, Assistant Professor, ED T&P
James Werchan, Lecturer, English

25 Year Honorees Betty Milum and Gary Weaver.

“Why Do They Get It On Friday and Misspell it on Monday?”

A one-day spelling conference for K-8 teachers sponsored by the Professional Development Consortium will take place at The Ohio State University at Lima on Thursday, June 15, from 8 a.m. to 3 p.m.

The conference will be led by two Ohio State University professors, Jerry Zutell and Patricia Scharer. Large group sessions will focus on the development nature of spelling and an important new instructional technique, the Directed Spelling Thinking Activity (DSTA). Small break-out sessions will enable primary and upper grade teachers to meet separately with Dr. Zutell and Dr. Scharer to discuss spelling assessment tools and classroom organizational strategies specific to primary and upper grade students.

The registration fee of \$5 includes a packet of professional readings and instructional materials. The fee for participants wishing .5 CEU credits is \$10 and includes the packet of readings.

For more information contact Dr. Leslie Brady, St. Marys City Schools or Ohio State Lima's Department of Continuing Education at 221-1641, ext. 240.

Agribusiness courses begin on the Lima campus

This summer OSU Lima will offer a Field Crop Pest Management course. What makes this significant is that this is a result of the increasing close working relationships between OSU Lima and OSU Extension Agents. The course, Entomology 693, will be taught cooperatively by Columbus faculty and Extension Associates from Northwest Ohio and is directed at meeting the needs of practitioners in Agribusiness. The undergraduate or graduate credit course is the first of several courses planned to meet the needs of agriculture and the broader areas within agribusiness.

Altrusa Supports OSU Lima Summer Reading Clinic

This Summer, 20-30 education students at Ohio State Lima will receive college credit for their participation in a novel reading clinic located at a Lima area subsidized housing complex. The program, which began last year as a pilot project, is enabled to continue by virtue of a grant from the Lima chapter of Altrusa International.

Forty-five children ranging in age from kindergarten through 8th grade will complete three one-hour tutorials per week plus writing assignments. Student teachers enrolled for this course, will also attend regularly scheduled classes on the Lima campus.

“Parents and teachers were so impressed with the progress that the children made last year, that they urged us to continue this summer,” said Dr. Terrence Stange, Director of the Clinic and Assistant Professor of Education Theory and Practice at The Ohio State University at Lima. “This year’s program was in jeopardy through lack of funding until Altrusa stepped in. Thanks to a \$500 donation from Altrusa International, we can now buy the books and supplies that the children need. We can now keep a lot of kids interested and motivated, who might not otherwise get this chance to participate in this unique one on one development program offered by Ohio State.”

Newly Elected Faculty Assembly Officers 1995-1996

B. Angel	President
N. Arbuckle	Vice President
R. Miller	Secretary
C. Mosley	Treasurer
G. Handley	RCFC Representative
R. Milium	University Senator
H. McSwiney	University Senate Alternate

See you in September.
This is the last issue of The Buckeye for this school year.
Our next issue will be published in September.
Have a great summer. See you in the fall.

Summer Movie Series at the Civic Center

Don't miss summer at the Movies: Award-winning foreign films at the Veteran's Memorial Civic and Convention Center in Lima's Town Square.

The following list is the 1995 Summer Film Series:

June 24: *Cinema Paradiso* — (Italy) A young boy grows up in a small town in Italy where he develops a passion for movies. The backdrop of his youth is full of colorful characters, many of which we recognize from our own lives.

July 1: *Luna Park* — (Russia) As current as today's headlines, this intense thriller is about life in a lawless and racist society.

July 8: *El Mariachi* — (Mexico) This award-winning action-adventure film is an offbeat, south-of-the-border film noir about a guitar playing mariachi who is mistaken for a hitman.

July 22: *Redbeard* — (Japan) A young doctor discovers that the harshness of village life can be overcome with discipline.

August 12: *Jit* — (Africa) An exuberant romantic comedy from Zimbabwe features the irresistible beat of African Jit-Jive.

August 19: *Close to Eden* — (Russia) The tranquil landscape of the steppes of Inner Mongolia provides the backdrop for this exquisitely photographed celebration of a vanishing culture. Gentle, poetic and deeply satisfying.

All movies begin at 7:00 p.m.

A buffet supper will be served at 5:30 p.m. before *Cinema Paradiso* on June 24 and before *El Mariachi* on July 8.

Cost of the supper is \$8.00 and reservations are required by calling (419)224-5222. All movies are \$4.00 or \$22.00 for a season ticket for all six films.

Coffee and sweets will be available after the movies.

Lima Remembers Nobel Laureate

William A. Fowler, a former APS president and winner of the 1983 Nobel Prize in physics for his work on the creation of chemical elements inside stars, died in March of kidney failure. He was 83.

Fowler was born in Pittsburgh and grew up in Lima, Ohio. After completing an undergraduate degree in physics at The Ohio State University, he pursued graduate studies on radioactive elements of low atomic numbers at the California Institute of Technology, receiving his Ph.D. in 1936. He maintained his association with Caltech's Kellogg Laboratory for most of his career, becoming institute professor of physics in 1970, a position he held until his retirement in 1982.

Fowler's research focused on nuclear physics and nuclear astrophysics, specifically on studies of fusion reactions. During World War II, he was instrumental in the development of military proximity fuses, rocket and torpedo ordnance, and atomic weapons, for which he was awarded the government's Medal of Merit in 1948.

But it was his co-authorship of a 1957 seminal paper on the synthesis of the elements in stars that brought Fowler the greatest recognition. The paper helped create a basic model of star development by demonstrating that nuclear processes in stars could manufacture all the elements, starting with just the hydrogen and helium produced in the Big Bang. Fowler shared the 1983 Nobel Prize with Subrahmanyan Chandrasekhar for his work in this area, which was described by the Royal Swedish Academy at the presentation ceremony as "a complete theory for the formation of the chemical elements of the universe."
